Lighting

We believe that light is much more than a simple switch.
It is the soul of each space, responsible for creating atmospheres,
enhancing beauty, and defining each moment.
Our story began with a passion for design and the firm conviction
that lighting can transform a house into a home, an office into
an inspiring space, and a business into a memorable experience.

Environmental awareness

Our products are made with renewable and sustainable raw materials, mostly polylactic acid, a biodegradable polymer, which is manufactured from plants such as corn, beets, wheat, and other starch-rich products. The woods we use are also renewable and from local suppliers. We work day by day with environmental awareness in every part of the manufacturing process, from the materials we use to the treatment of the waste we generate, which is transferred day by day to the recycling centers.

Hanging Lamps

Pear

Pear

Diameters: 20, 25, 30, 35, 40, 50, 60, 70, 80 cm
7.9, 9.8, 11.8, 13.8, 15.7, 19.7, 23.6, 27.5, 31.5 in

Material: PLA (Polylactic acid)

Supported Power: 1 a 20 watts LED

Wire: white or black

Lamp holder: E26 white or black

Ceiling rose: metalic of 10 cm / 3.9 in

Colors: White  Natural  Black 

Vulcano

Vulcano

Diameters: 43, 50, 60, 70, 80 cm
16.9, 19.7, 23.6, 27.5, 31.5 in
